GENEVA HEALTH FORUM 2026 | Abstract #58

Rethinking Cooperation in Global Health: An Integrated Humanitarian Governance Framework (IHGF) for Equitable Health Access in Conflict and Post-Conflict Settings

Abdoullah Bazyar
Founder & President
Internationale Gemeinschaft für die Unterstützung von Kriegsopfern e.V. (ISAWV/IGUK)

BACKGROUND

Armed conflicts and humanitarian crises weaken health systems and limit equitable access to healthcare.

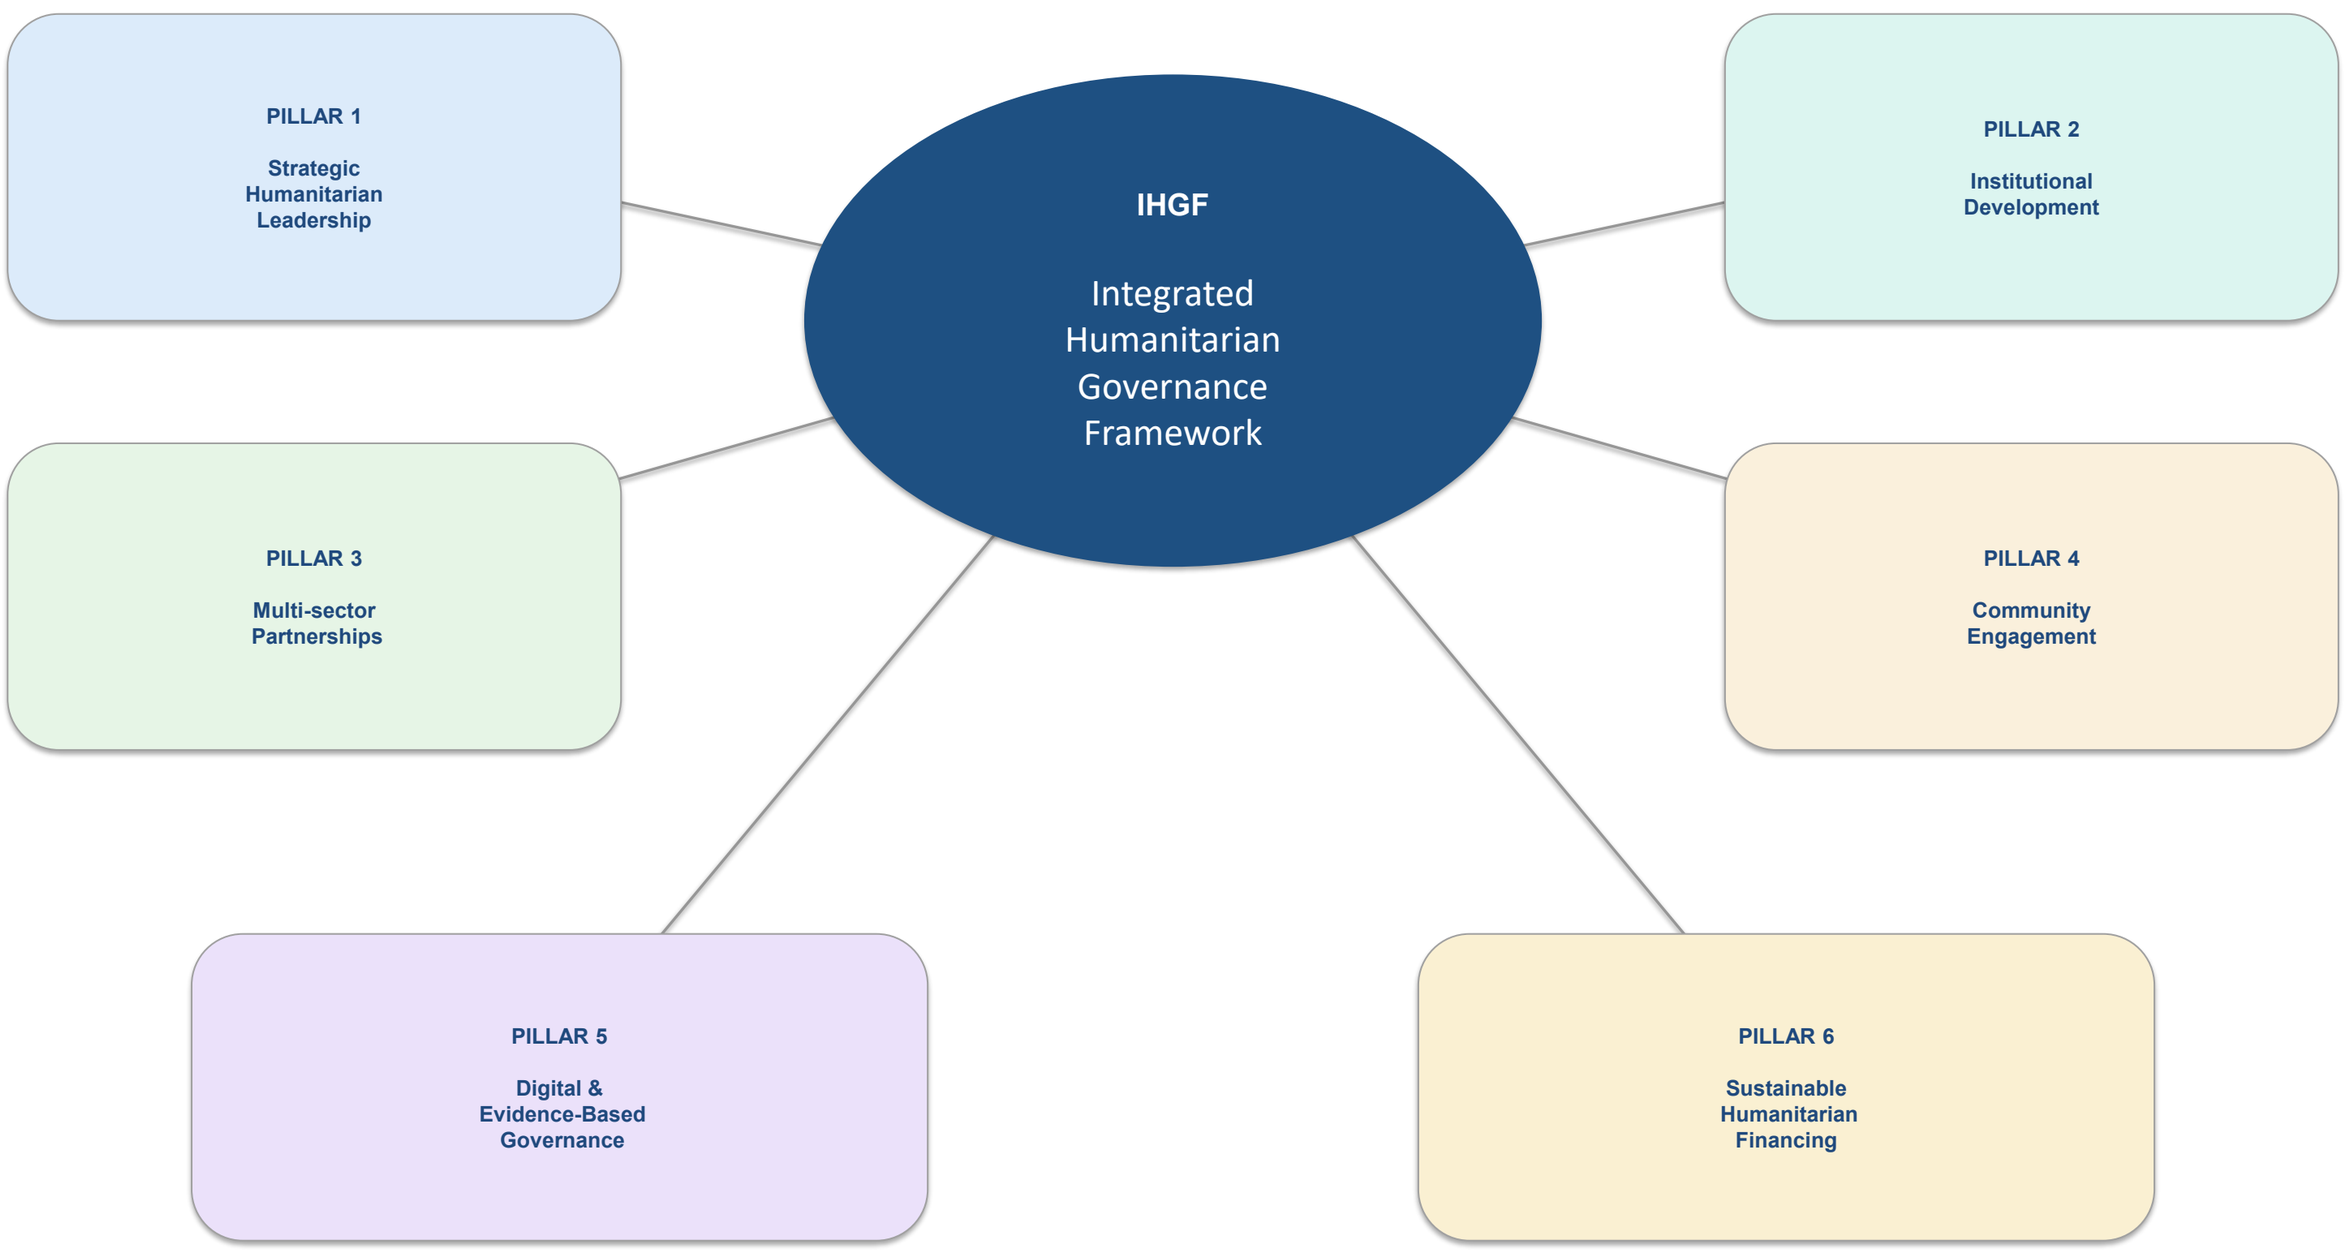

OBJECTIVE

To propose IHGF as an integrated governance architecture for global health cooperation.

METHODS

Conceptual framework development based on humanitarian governance and global health cooperation approaches.

THE INTEGRATED HUMANITARIAN GOVERNANCE FRAMEWORK (IHGF)

EXPECTED CONTRIBUTION

FROM FRAGMENTATION → TO INTEGRATION

FROM EMERGENCY RESPONSE → Resilience Building

FROM BENEFICIARIES → Community Partners

FROM SHORT-TERM FUNDING → Sustainable Financing

POLICY IMPLICATIONS
- **Governments**
- **International Organizations**
- **Donors & Funders**
- **Local Communities**

CONCLUSION

IHGF connects governance, partnerships, communities, evidence and sustainable financing to strengthen equitable and resilient health systems.
